- (c) For purposes of subsection (a) of this section, the referenced one year period shall begin on July 1st and end June 30th of the following calendar year, except for the first year of reserved or unreserved moorage (which is for a 365 day period, terminating on the same day of the next year following the commencement of the reserved or unreserved moorage use permit). For purposes of the first year of reserved or unreserved moorage, the beginning date shall be the first day such use is permitted and shall extend for one year. In the event the moorage is renewed in a timely manner, the moorage fee for the second year shall be prorated from the renewal date through the following June 30th. To determine the prorated moorage fee for the second year's moorage, the appropriate annual fee shall be divided by twelve (12) and the result multiplied by the number of months or any portion of a month of permitted use. In the event the moorage use permit holder wishes to terminate the moorage use permit and seek a refund of a portion of moorage paid, the determination of a refund, if any, shall be as follows: the difference between the annual moorage amount paid and the transient daily rate multiplied by the number of days from the prior renewal date to the date of termination. If the moorage amount paid by permit holder exceeds the calculated figure, the City shall refund the difference.

11.050 USES PERMITTED: The use permit agreement and use permit emanating therefrom shall allow the use of the boat launch and of the moorage facilities for moorage purposes only and shall grant no further right privilege or use. Additional or varying uses shall not be allowed, except as provided in the following sections.

- (b) If two or more vessels are being traded between boat owners so the net result does not change the moorage configuration within the harbor.
- (c) If a vessel owner sells a vessel and replaces it with another vessel that may, in the judgment of the Harbormaster, be safely moored in the same berth or in a suitable, available berth on the public docks when no one is on the waiting list for such berth.
- (d) If a vessel owner transfers title to a corporation in which the vessel owner owns and maintains ownership of not less than 51 percent of the issued and outstanding stock.
- (e) Upon the sale of a working charter boat with a valid City business license to an individual who shall continue working in the harbor as an active licensed charter boat, the purchaser of said vessel shall have the first right of refusal on said vessel's existing moorage space at the time of the sale.
- (f) Upon the sale of a licensed actively working commercial fishing boat to an individual who shall continue working in the harbor as a licensed active commercial fishing boat, the purchaser of said vessel shall have the first right of refusal on said vessel's existing moorage space at the time of the sale. For the purposes of this exception, "Commercial Fishing Boat" is defined as one that "holds a valid resident or non-resident commercial fishing boat license and a valid commercial fishing license which authorizes the activity of selling his/her own catch directly from the vessel from which the catch was made and only to the ultimate consumer".

All such insurance policies required under this section shall name the City of Depoe Bay as additional insured and shall include a provision governing notifying the City prior to any early cancellation of the policy. Proof of all such insurance policies required under this section shall be provided to the City of Depoe Bay as a condition of issuance of a moorage use permit. The Certificate of Insurance provided as proof shall clearly identify the insurance coverage and name the City of Depoe Bay as "Additional Insured" on the policy. Non-motorized vessels are excluded from the requirement to carry pollution liability insurance, all other requirements of this section shall apply.
- (e) All unreserved moorage and transient moorage use permits for a period of three (3) days or less shall be granted upon receipt by the City of applicant's signed indemnification and hold harmless agreement (incorporated herein and attached as Exhibit "A") and payment of charges provided there is no violation of any City Ordinance and there is sufficient unreserved moorage space available, on a first come basis. There is no waiting list for unreserved or transient moorage use permits.

11.100 ADDITIONAL RIGHTS NOT IMPLIED: The issuance of an unreserved moorage use permit does not grant any rights or privileges to a holder of an unreserved moorage use permit with regard to consideration for the granting of a reserved moorage use permit. Holders of an unreserved moorage use permit must apply for a position on the waiting list for a reserved moorage use permit in the same manner as those not having an unreserved moorage use permit.

11.110 WAITING LIST: The City shall maintain a waiting list of applications for reserved moorage use permits. The waiting list shall be divided into categories determined by the City,

based upon the various sizes of berths or moorages available in the harbor. All new and renewing waiting list applications shall be subject to payment of such fee as may be determined by the City Council by resolution from time to time.

A written appeal shall be filed with the City no later than within five (5) business days of the date of reassignment determination. An appeal, timely filed, will be presented to the Harbor Commission at the first regular Harbor Commission meeting following filing of the appeal. Appeals are de-novo. Moorage reassignment may also be made by the Harbor Commission or the Harbormaster if a vessel's size in relationship to the size of the assigned berth does not permit maximum and efficient public utilization of harbor facilities or if a reassignment will in any other manner increase the efficient public utilization of moorage facilities.

11.140 TEMPORARY ASSIGNMENT AND REASSIGNMENT: Holders of moorage use permits may be temporarily assigned or reassigned to other berths or spaces to accommodate repairs, improvements, maintenance, construction, emergencies, or special events.
